In 1995, State Comptroller John Sharp initiated Family Pathfinders, a statewide project in which volunteers from religious and civic groups work with welfare recipients to help them find jobs, become self-sufficient, and move from public assistance to the work force. A liaison with the Texas Department of Human Services was established. Under Comptroller Carole Keeton Rylander, the Family Pathfinders staff moved to the TDHS headquarters.

In rural Smiley, population 500, a group of caring and concerned women decided to empower low-income women in the area **through** classes in life skills. computer basics, parenting, and money management.

The state Family Pathfinder staff came to train the Smiley core group. This group became a Family Pathfinder team, which enlisted the cooperation of the Smiley United Methodist Church pastor and the United Methodist Women. Five young women were recruited. They completed a ten-session Survival Skills course created by the psychology department of the University of Kansas. Within a few months, two participants moved out of the local housing authority into rental houses. Four upgraded their job positions. The fifth uses her office skills to assist her self-employed husband.

Based on these results, the team was awarded a TDHS innovation grant in the fall of 1999. Smiley's submission became one of five chosen from a hundred applicants throughout the state. The team focused on three target groups: unemployed young women, teens at risk of becoming dropouts or pregnant, and anyone in need of literacy instruction.

The grant piovided funds from the TDHS for:

- GED and computer classes in the Gonzales Learning & Career Center.
- Transportation costs to the classes.
- Child care during the Survival Skills classes.
- Bookkeeping services by a local accountant.
- One-tune car repair assistance for any participant nith an emergency need
- Survival Skills for Youth facilitator training
